Schneider Electric

Advancing Energy Tech

Kelly Becker

President, North America Operations

Kelly Becker leads Schneider Electric's North America operations and is a member of the Global Executive Committee of Schneider Electric, overseeing an integrated multi-billion-euro region that enables electrification, digitalization, and automation across data centers, buildings, homes, infrastructure, and industry. Working closely with customers, partners, and public stakeholders, Kelly leads more than 40,000 employees delivering energy technologies that improve efficiency, resiliency, and sustainability at scale across the U.S., Canada, Mexico and Central America.

With more than 20 years in the energy and industrial sectors, Kelly brings deep experience in driving growth, leading complex organizations, and executing business transformations. Prior to her current role, she held senior leadership positions across Europe and North America, including President of Schneider Electric's UK & Ireland, Belgium, and Netherlands operations; Country President for Ireland; and Vice President of the Power Solutions division in the U.S. Earlier in her career, she held product and commercial roles at Danaher Corporation and TAC.

Kelly holds a bachelor's degree in Advertising and Public Relations from Texas Christian University, an MBA from the Darden School of Business at the University of Virginia, and is a graduate of the Advanced Management Program at Harvard University Business School. She is a Non-Executive Director of Elis (ELIS.PA) and serves on multiple academic and business advisory boards.
